Will Last 34 Hours, 19 Minutes

Astronaut Cooper Waits 22-Orbit Flight Tuesday

CAPE CANAVERAL, Fla. (AP)—Astronaut Leroy Gordon Cooper Jr. has his "ditty bag" packed and the Mercury travel agency has ticketed him for the most extensive round-the-world tour ever planned for an American.

Next Tuesday, if the present schedule holds, Cooper will rocket into space on an intended 22-orbit mission lasting 34 hours 19 minutes. His only luggage will be a lunch box of bite-size tidbits and dehydrated food and the ditty bag—a packet for storing cameras and miscellaneous items.

A glance at the flight plan reveals these highlights:

Cooper's "Faith 7" spacecraft will travel nearly 600,000 miles and cover more than one million square miles of the earth's surface—at altitudes ranging from 100 to 170 miles.

As Cooper circles the globe, he will traverse all areas between 32.5 degrees north and 32.5 degrees south latitudes, which in the Western Hemisphere extends roughly from Charleston, S.C., to Santiago, Chile, and in the Eastern Hemisphere from Shanghai, China, to Sydney, Australia.

He will pass over parts of five continents, North and South America, Asia, Africa and Australia. Africa and South America will be crossed frequently.

Cooper will be the first U.S. astronaut to fly over Red China, spending a total of about 45 minutes over the Communist nation on passes lasting from four to eight minutes during orbits No. 7, 8, 9, 10, 11 and 22.

ASTRONAUT L. GORDON COOPER, in space suit, chats with fellow astronaut John Glenn at Cape Canaveral. Glenn tries the gloves Cooper will wear on his scheduled 22-orbit space flight next Tuesday. Cooper looks at the helmet he is to wear. (UPI Telephoto)

Predicts More Testing This Year

Kennedy Doubts Soviet Agrees On A-Test Ban

WASHINGTON (AP)—President Kennedy predicts a new round of nuclear testing by the United States and the Soviet Union unless a test ban treaty is negotiated this year—which he doubts.

If the prediction comes true, Kennedy told his news conference Wednesday, it "would be a great disaster for the interests of all concerned."

Recalling that he saw brightening prospects for a ban last December, Kennedy said there has been no sense of movement since then.

"I am not hopeful at all," he said, and expressed fear that progress must come soon or "perhaps the genie is out of the bottle and we will not ever get him back in."

Kennedy's pessimism on this subject was matched by an equal measure of optimism about efforts to end what he termed "an ugly situation in Birmingham, Ala."

Declaring that racial strife in Birmingham damaged the city and the nation, Kennedy said in an opening statement that responsible efforts by white and Negro leaders had prompted Birmingham businessmen to pledge "substantial steps" to meet the "justifiable needs of the Negro community."

But he said "much remains to be settled before the situation can be termed satisfactory."

Kennedy said that, in the absence of violations of federal law, the federal government had limited its role in Birmingham to that of mediator. But he said the situation could be quite different if two Negro graduate students win entry this summer to the Huntsville branch of the University of Alabama.

"This, of course, does involve the federal government," he said. And, reminded that Gov. George Wallace has threatened to physically and personally bar integration at the university, Kennedy said he hoped everyone would obey court orders "whether they agree with them or not."

In a 30-minute session that touched often on racial matters, Kennedy said the bettering of race relations is not a problem for the South alone.

Asked if he would endorse the

move by white and Negro families in Knoxville, Tenn., to visit each other in their homes, Kennedy said:

"I think it would be very helpful, and you can start right here in Washington, D.C., where this is greatly needed."

Two overseas crises also were discussed.

Kennedy said that while Soviet Premier Khrushchev has reaffirmed a pledge to support a neutral and independent Laos, a recent attack on International Control Commission helicopters by the Pathet Lao "indicates that they are not at the present time living up to this commitment."

He said he hopes Khrushchev can do better than that.

Asked if economic or diplomatic sanctions should be used against the Haitian regime of Francois Duvalier, Kennedy said the Organization of American States is doing right by sending a special group that will try to keep peace between the Dominican Republic and neighboring Haiti.

Finally, Kennedy was asked about one potential crisis and still another that is fast fading.

Ohio County Seats Too

Senate To Act On Moving Capital In Bomb Attack

COLUMBUS, Ohio (AP)—Someday, if enemy bombs fall, Ohio may need a new capital for a few days or weeks, and county seats may have to be moved temporarily.

Looking to this possibility, the Senate scheduled a vote this afternoon on a bill to permit removing the seat of either state or county government to a new location in the event of attack.

To give its committees more time to consider bills, the Senate is meeting this afternoon, rather than this morning. The move to delay the Senate's weekend recess from this morning, which is normal, to this afternoon indicates the Senate plans to adjourn the session in mid-June.

In the House Wednesday, a bill to tighten regulations on beauty schools and operators fell three votes short of the 69 necessary for passage. The vote was 66-57. A move to reconsider the bill's defeat is likely.

The House approved, 82-37, and sent to the Senate a bill increasing the minimum population of a health district from 5,000 to 25,000 population. The measure also re-

quires combining smaller health districts by 1972.

Rep. Douglas Applegate, D-Jefferson, was co-sponsor of the measure.

The House, in a generally routine legislative day, passed and sent to the Senate bills to codify marriage annulment laws, require a one-year probational period for new city firemen and lower franchise and intangible taxes on small business investment companies and farm credit associations.

Sargus Makes Plea To Kennedy On Coal

COLUMBUS, Ohio (AP)—The Ohio House has adopted and sent to the House a resolution asking President Kennedy to reduce what lawmakers consider unfair competition to the Ohio coal industry.

The resolution, adopted without a recorded vote, asks the President to reduce imports of resin.

Son Arrested

On 2 Charges After Pursuit

Daner Adkins Jr., 2316 Crawford Ave., who escaped from police Friday night in a wild pursuit that started after a minor traffic violation, was taken into custody late Wednesday afternoon when three officers surrounded the home.

Patrolman Samuel E. Hayes, Paul Blevins and Karl W. Samples arrested Adkins on charges of crashing a traffic light at Pennsylvania and Dewey Aves. and "willfully and knowingly resisting a police officer in the lawful execution of his duties."

Officer Hayes charged that the younger Adkins fled in his car when the patrolman attempted to arrest his father, Daner Adkins, on a bad check charge.

After a long pursuit in which the patrolman fired several shots, the Adkins car was disabled with a flat tire on Price St. Ext. The father and son fled on foot, but the officer overtook the father, handcuffed him and then left him while he continued the pursuit of the son.

Unable to find the son, the officer returned to the site where he had left the father and found

Outdoor Fires

Now Banned

High Winds, No Rain Halt Permits

Due to the extremely dry conditions and high winds the past few days, the Ohio State Forestry Division at New Philadelphia issued orders Wednesday afternoon that no outdoor burning be permitted in Columbiana County and surrounding areas.

The area wardens were notified not to issue any permits for burning today and that all permits previously issued are revoked until further notice.

The burning will be prohibited until conditions improve with rain. Charles Heffner of Scotch Settlement, near Wellsville, the area smoke chaser for the Forestry Division, was on duty with his truck today at the Beaver Creek State Forest Fire Tower off the Lisbon Rd.

He also was on duty at the tower all day yesterday so he could respond more quickly to any calls received or any fires spotted by the tower watcher.

Fire officials said the fire index is very high and the woods and fields are tinder dry. The fire index is the highest it has been for this year, officials said. It will not be known until late this afternoon if burning will be permitted Friday.

Marches May Be Over

Racially-Torn Alabama City Awaits Truce End

President's Watch Kept On Alabama

Hails Government Induced Accord In Racially Torn City

WASHINGTON (AP)—President Kennedy kept a close watch today on a shaky truce in racially troubled Birmingham, Ala.

The President hailed at his news conference Wednesday the government induced accord that temporarily halted integration demonstrations in the city. And he made clear that he prefers limiting Washington's role to conciliation.

There have been no federal violations, the President said, and so "our efforts have been focused on getting both sides together to settle in a peaceful fashion."

Still, it is known that if the truce snaps—it did for a few hours Wednesday night—the White House has considered several ways of getting deeper into the crisis.

Before the news conference, the White House announced that "every avenue of executive authority is being explored with reference to racial difficulties in Birmingham, Ala."

While Andrew Hatcher, assistant White House press secretary, did not amplify this announcement, it was learned that the President's civil rights advisers were discussing several possible ways of federal intervention.

These included:

1. The filing of a federal suit challenging the constitutionality of Birmingham's public segregation ordinances. This would be done by Negro leaders in cooperation with the Justice Department and Birmingham merchants.

2. A dramatic visit to Birmingham by a high official of the federal government.

3. The seeking of a federal injunction by the Justice Department barring Birmingham police from interfering with the Negro demonstrations. This would be sought under the First Amendment guaranteeing the right of free speech and assembly.

4. The federalization of the Alabama National Guard to keep it out of the hands of Gov. George Wallace, a staunch segregationist.

5. A threat by the federal government to withhold certain federal funds from Alabama.

Threat Of War Eases?

Peace Unit Concerned Over Peril Of Revolt In Haiti

NEW YORK (AP)—The special peace committee of the Organization of American States delayed its return to Haiti and the Dominican Republic today, apparently convinced that the threat of war between the two Caribbean neighbors is no longer serious. But greater concern continues over the internal situation in Haiti.

The main concern appeared to be whether the threat of revolt in Haiti would prompt Dictator President Francois Duvalier to launch sweeping, bloody reprisals against foreigners, particularly Americans, and suspected opponents.

The anti-Duvalier underground has threatened an uprising by May 15. Meanwhile the OAS is without authority to intervene in what is essentially a domestic Haitian affair.

Gonzalo Facio of Costa Rica, head of the OAS council, told newsmen in New York Wednesday night that it may be 10 days before the committee goes back to the troubled island of Hispaniola.

"The committee almost certainly will return," Facio said. "But just when and what their agenda will be hasn't been decided yet."

The special committee was set up last week after Duvalier's police invaded the Dominican Embassy in Port au Prince in search of Duvalier opponents who had taken refuge there.

Dominican President Juan Bosch moved troops to the border and threatened military action, but a visit by the OAS committee calmed the situation.

Facio said the OAS will study a report from Alberto Zuleta of Colombia, a committee member who stayed behind and was expected back from Santo Domingo today.

"We're also evaluating other information before deciding when the committee will return," Facio said. "We're getting reports on the situation of those in asylum in Port au Prince and on the Haitian internal situation."

Haitian Foreign Minister Rene Chalmers conferred with Facio and members of the OAS committee Wednesday night in New York and told them he will try to end his government's hostile acts against 22 political refugees still in the Dominican Embassy.

He also promised the committee to press Duvalier to give safe conduct out of the country to the refugees, who were put under protection of the Colombian Embassy after Haiti broke relations with the Dominican Republic last week.

At the height of the crisis, Duvalier pledged to let 15 of the 22 refugees go and to allow the other seven to transfer to the Colombian Embassy. Instead he ringed the Dominican Embassy with troops, and Bosch has demanded that all 22 be allowed to leave the country.

About 60 Duvalier opponents are in other Latin-American embassies in Port au Prince. No open move has been made against them.

Chalmers told newsmen Monday night in Port au Prince that little by little all the refugees in all the embassies would be allowed to leave Haiti. None has been given safe conduct, however.

Hopes Held Settlement Will Be Soon

Truce Almost Fails After Jailing Of 2 Integration Heads

BIRMINGHAM, Ala. (AP)—This southern industrial city may know today whether month-long desegregation demonstrations finally have come to an end.

A 24-hour moratorium on the protest marches by many hundreds of Negroes during the past few days ends at noon Eastern Standard Time.

Negro leaders voiced hopes that a settlement of racial differences might be reached soon.

The truce almost collapsed a few hours after it started when two of the integrationist leaders were jailed briefly, but it weathered that crisis.

Negro leaders announced the 24-hour truce Wednesday as heavily reinforced police patrolled the streets, quiet in sharp contrast to the crowd scenes of recent days.

The word came shortly before President Kennedy's news conference in Washington. The President said he was gratified by progress in what he described as "an ugly situation."

Alabama Gov. George Wallace called the President's remarks "unjust and unfair" and said the demonstrations had been carried on by "lawless mobs in conflict with lawfully constituted authority." Wallace said he would have no part in conferences "to compromise on the issues of segregation."

Along with a biracial committee, two aides of Atty. Gen. Robert F. Kennedy have been working behind the scenes to bring both sides together. The No. 1 negotiator is Asst. Atty. Gen. Burke Marshall.

There was no indication of what actually brought the truce.

It was a quiet lull in an explosive situation in which more than 2,400 Negroes have been arrested since the protest demonstrations began April 3. More than 2,000—most of them teen-agers—were arrested in the past week after the demonstrations expanded.

Rogers Youth And Cousin, 29, Hurt In Mishap At Bridge

A 19-year-old Rogers youth and his cousin from New Galilee, Pa., were in "fair" condition today at two hospitals with injuries suffered when their car ramed into an abutment of a one-way bridge near Rogers late Wednesday afternoon.

Jay Quetot, son of Mr. and Mrs. James Quetot of Market St., Rogers, suffered fractures of the jaw, right hip and left leg and loss of some teeth, and is in Youngstown South Side Hospital.

Donald Rader, 29, of New Galilee, suffered multiple cuts of the face, fractured jaw, lacerations of the leg, loss of teeth and possible internal injuries. He is in Salem City Hospital.

The Ohio Highway Patrol at Lisbon said Rader was driving west on Route 154 when he apparently lost control and ramed the abutment of the narrow bridge about a quarter of a mile west of the village at 5:15.

His 1955 Mercury sedan was demolished, officers said.

Witnesses reported the two had been to Rogers to get gasoline for the Quetot car further west on Route 154.

The car struck the abutment, then bounced, rear-end first, down an embankment to the bank of Bull Creek.

Rader was pinned between the steering wheel and seat of the

Military Pay Boost Bill Goes To Senate

WASHINGTON (AP)—A \$1.2-billion military pay raise bill, cleared by the House on a lopsided vote, now goes to the Senate with more fuss likely over hotly disputed retirement provision.

The bill won House approval Wednesday on a standing vote of 293-10 after the legislators twice overruled their Armed Services Committee and wrote back into the legislation sections increasing the pensions of some 108,000 retired servicemen and providing special pay for cold war combat duty.

Some Post-Election Thoughts

Two things come to mind almost instantly when reflecting on Tuesday's election here:

- 1- The continued apathy toward primary races.

- 2- The ease with which Frank P. Duffy defeated his incumbent opponent, Mayor Bert H. Goodball.

Expanding on No. 1, less than 4,000 of the city's 8,000 eligible voters took the time to participate in one of our most precious freedoms — that of voting.

This may have a familiar sound, since we have hammered at it before. But the right to vote looms ever larger and more important as the world rolls on.

What a scream of anguish there would be if those who didn't go to the polls on Tuesday were told that they no longer would have the privilege of voting and that the 3,889 who did cast ballots would do their thinking for them from now on at election time!

Primary apathy wasn't peculiar to East Liverpool. It was general throughout the state. And such apathy isn't a new story. It's been the rule rather than the exception over the years.

But that's all the more reason why it's time for a change.

East Liverpool voters could do something about it by marking the primary of 1963 as the time when they saw the light and determined to swarm the polls in future elections. Who knows, we might set an example which would get the ball rolling all over the state!

Turning to the mayoral contest on the Democratic ticket, few had discounted the possibility of a Duffy victory. But there also were few, if they will be honest with themselves, who figured that the margin of victory would be so great — almost 2 to 1.

The vote made it quite apparent that Mr. Duffy has built up a solid following. He has made a definite favorable impression on registered Democrats and must be regarded at this time as having the inside track for election in November unless the Republican candidate presents a strong, sensible and progressive program and Republican party leaders launch a vigorous campaign which not only will get GOP supporters to the polls in great numbers but can swing over those Democrats who may be on the fence.

Mr. Duffy, by his smashing victory, has thrown down the challenge.

Charlie Does A Good Job

About 10,000 homes in East Liverpool were visited by Charlie in the past few weeks.

Charlie is the fictional chap in a brochure prepared, published and distributed by the Jaycees to further inform city residents about the proposed master plan.

Charlie helped point out some of our problems and some of the ways they could be solved by study and action supported by the whole community.

The Jaycees in their booklet have urged us all to be well-informed on civic matters, to take part in every election, to be constructive, active citizens.

"In our community which can grow so much and has so much promise," the brochure states, "we have all the pessimists we need to hold us back. But through your help we can show them we can pull ourselves up by our own bootstraps, through unified effort, hard work and a few sacrifices."

The Jaycees have been commended in a letter from the state president, Richard T. Croyle of Lorain, who said Charlie "is one of the best tools that I have seen come out of any local in a long, long time."

The Review echoes Mr. Croyle's summary. "You should all be very proud of your efforts."

Short View In Birmingham

The last thing and the least thing Birmingham officials need is to have it pointed out that their philosophy is coming unglued.

But it is. Other Southern cities and perhaps some Southern states may have to change their viewpoints as the result of Birmingham's experience with Negroes who want to be arrested so they can go to jail.

Among those who have gone already and presumably among those who will be willing to go in the future are hundreds of children.

IN A CITY by no means equipped to handle thousands of prisoners at a time it will take a miracle to avert a scandal about their care. Reports already have been circulated about gross inadequacies of food.

The arrest of so many Negroes in the sight of other Negroes is certain to have the effect of increasing group cohesion. This has been one of the toughest problems for Negro leadership in connection with demon-

strations against denial of civil liberties—the fact most Negroes, having lived all their lives with the purpose of avoiding trouble, are reluctant to identify themselves with positive action. Birmingham has worsened its problem by trying to solve it.

Birmingham cannot put all its Negroes in jail. It cannot keep the Negroes in jail it has put there so far.

WHEN THE demonstrations began, officialdom took the short view of a long-range problem. As the problem stretches out and becomes more troublesome each day, the short view holds no hope.

This is the issue of Negro rights in the United States. It is whether in the long view of their rights as guaranteed in the Constitution there is a place for short-view procedure like Birmingham's attempt to jail Negroes who assert themselves.

If all Negroes in Birmingham assert themselves, what then?

Not Wisely But Too Well

At a hearing in Washington a few days ago, spokesmen for restaurant and hotel operators again told the Internal Revenue Service their business has been crippled by restrictions on expense-account spending.

They added thereby to an impression made by every spokesman reflecting the views of purveyors of food and entertainment—that their business had depended so heavily on tax-deductible spending that stricter regulations by Congress and IRS were wiping them out.

It does not add up. Granted that luxury restaurants have been hurt grievously, could there be something else involved in their

loss of trade, perhaps eagerness of expense-account customers to find an excuse to cut out some of the eating and drinking that were turning so many business people into bad medical risks?

Naturally, no one wanted to be branded a cheapskate by pioneering an austerity crusade in the interest of health. But is it possible the new rules on what was deductible tumbled a social structure already undermined by medical opinion that many business people were hastening their demise by living not wisely but too well?

When they asked for medical advice, they always heard the same story: Cut down and live longer.

Watch The Ashes!

By Truman Twill

It has been noised around from time to time that the next big move by the tobacco people will be cigar smoking for women.

This might catch on, though a few years ago the tobacco people whooped up pipe smoking for women, or somebody did, and didn't seem to make headway.

When that campaign tailed off there may have been no more women smoking pipes than a century ago. Pipe smoking was very big among women during the frontier period of this country.

In backwoods sections there are still old crones puffing on pipes while rocking away on cabin porches. They also hit snuff and masticate the weed.

So even cigar smoking among women wouldn't be startling if it caught on. You might be surprised at the number of women who light up cigars now, not counting the ones who get away with it because they smoke miniature cigars the size of cigarettes.

Cigarette smoking by women in the United States began to gain converts when Alice Roosevelt, a dynamic figure in the reign of Roosevelt I, began to light 'em up in the White House. The era of socially sanctioned smoking for women is scarcely a half century old in its entirety — and there was still stiff resistance to stained fingers, pinpoint burns in clothing and smoker's breath among the soft sex until the Jazz Age broke down the last barriers in the Madcap Twenties.

All of which is background for a tidbit of information about a handout from a Philadelphia advertising agency representing a client known as Anti-Tobacco Center of Amer-

ica, with headquarters in New York City.

The theme is "Smoking Kills Femininity." That's putting it strongly, of course, but there is an element of doubt in some men's minds about one thing among women who hit the weed.

Either they smoke so little it's negligible or so much it's obsessive. There are no moderate smokers among women. They're either about to give up smoking or ring the bell with an all-out effort.

This appears to be caused by the fact women are still not out of the fad stage of doing something that represented emancipation when Alice Roosevelt began to puff cigarettes in the White House. They're still trying to prove they're ready for anything, yes sree!

Many men act as if they were trying to prove this too. But nothing carried to excess is good — salted peanuts, spirituous liquor, mashed potatoes, weight-lifting, soprano singing, hobbies, humility, financial prudence — or smoking.

Anything that's overdone turns into a bad habit.

This might include anti-tobacco crusades, which are in as much danger of being overdone as the use of tobacco past the point of reasonableness by people who never know when to say, "That's enough for now, thanks."

If cigars for ladies catch on, so be it. But somehow the thought of a lady doing to a cigar what men who eat 'em alive and spit out the pieces do is, gulp, enough to make a man hope he'd never have to spend an evening with a lady cigar addict—and watch the ashes, sweetie.

No Surprise Party

Negroes Plan March On Washington

By Victor Riesel

A massive Negro "march on Washington," converging on the capital from all parts of the nation, by car caravans, busses, airplanes, trains and even on foot, is being detailed planned by Negro labor leaders.

Those in charge of the logistics, the routes, the demonstrations, hope to put 100,000 men and women into the capital's streets. All this, including preparing units as far from New York and Washington as Los Angeles and Northwestern cities will take months of preparation. So the target date for the overland "march" is Oct. 4.

The words of A. Philip Randolph, Negro vice president of the AFL-CIO, which set the tone and spirit of the transcontinental demonstration, the largest of its kind in our nonmilitary history.

"The time has come," said Randolph in New York recently, "for the development of a massive national effort of the black laboring masses, in the form of a job rights march and mobilization on Washington, in order to wake up Negro America to the job crisis now upon it."

NEGRO CONTINGENTS will not mass at all points of the land merely for an excursion, nor to stretch their legs when they march down Pennsylvania Ave.

They will march and jam the streets and malls around the Lincoln Memorial in protest against their friends as well as against those with whom they are in battle.

There is irritation with President Kennedy among them and their leaders. And so A. Philip Randolph, demonstration leader, grand marshal of the vast "march," head of the swiftly-growing Negro American Labor Council, said as he worked on his plans that they hope to "move President Kennedy to a deeper sense of the urgency of the economic plight of the Negro community."

They will ask John Kennedy to address them from the Lincoln Memorial as they gather 75,000 to 100,000 strong.

There is irritation among the Negro leaders with the predominantly white labor movement.

THE MARCHERS will not only seek to "stir organized labor" into demanding heavier public works spending, and opening more jobs to Negroes, but also to "wipe out every vestige of race bias" in its ranks.

Typical of what has been angering the Negro labor leaders in the untold story of recent development in the "Howard University case." This case has led to one of the most startling of new federal policies.

The newest chapter of this story began in the secretary of labor's official conference room, at 4 p.m. on April 29.

In the room were construction and building trades labor leaders, contractors, and government men — some fifty in all. Chaired the somber session was the comparatively new undersecretary of labor, John Henning.

With the full knowledge of Secretary Willard Wirtz and the White House, the men had been called together for a showdown talk. The issue was employment of skilled Negro craftsmen on the \$2.6 million gymnasium project at all-Negro Howard University here.

Thus far only white labor has been hired despite pressure from the highest government authorities.

FOR MONTHS now the leaders of the sheet metal workers, steamfitters, plumbers and electrical brotherhood locals in Washington had said they'd do what they could.

No Negro was sent along in response to the contractors' requests for skilled labor. With deadline for the project coming up quickly in September, the pressure has been intensifying from the government and Negro leaders.

Finally all sides were summoned to the April 29 conference. The federal people said, in effect, it would be unfair to take the construction contracts away from the companies, which were willing to hire Negroes.

The unions had not provided them—despite the pressure of some of the national labor leaders and the national AFL-CIO headquarters itself.

The gymnasium is being built with federal funds. So the government had said to the contractors, go out and find Negro workmen.

THEN LABOR MEN at the party were told that if the contractors found them and they

were not union men—the Negroes should be hired none the less. This is unheard of inside the Labor Department.

This is the first open threat to deliberately use non union labor on a U.S.-subsidized project—and the Labor Department took this drastic action in a final effort to crack open all-white membership lists which the Negro leaders everywhere charge are keeping their people out of jobs by the scores of thousands.

Thus the reasons for the "march" on Washington are not restricted to pressuring any one group. Demands will be made on all.

Through The Years

THIRTY YEARS AGO — A three-day celebration of the 70th anniversary of the founding of St. John's Evangelical Lutheran Church was launched, with William Keal as general chairman.

Paul Katz, Mary Alton, Paul Nelson and John Snediker had roles in the production of "Gypsy Jim" under auspices of the Theater Guild.

TWENTY YEARS AGO — Mrs. W. B. Louthan returned to her home on Park Blvd. after several months in Mt. Dora, Fla.

William McDonald of Glenmoor was named president of the East Liverpool Lions Club and Leo Lawrence, first vice president.

TEN YEARS AGO — Mrs. Felix Orr of Washington St., Chester, was among televiewers of a program from Havana. Freakish atmospheric conditions were credited for the unusual distance.

John G. Wells of East Liverpool was promoted to staff sergeant at the Air Force Base at Colorado Springs, Colo.

Mrs. Reed Campbell was named president of the Jayceettes and Mrs. Richard Martin vice president.

Not Always Busy

The proverbial busy bee literally works itself to death, but it has a lazy streak, too.

Worker bees live only four to eight weeks after the honey gathering begins. Buzzing tirelessly from flower to flower, they gradually wear their delicate wings to a frazzle.

Honeybees, however, will fly no farther for food than necessary, and they prefer the most easily obtainable pollen and nectar. Given the choice, say, of white clover or alfalfa in the same field, the honeybee will choose clover. The alfalfa pollen is harder to reach.

Pollen preferences of honeybees are vital, because they handle more than 80 per cent of all the pollination done by insects. Without honeybees, many important plants would simply disappear.

About 50 cultivated plants in the United States require insect pollination, including alfalfa, sweet clover, watermelons, apples and cucumbers. Pollinating insects are essential for seed development in carrots, radishes, turnips, cabbage, celery and many other vegetables.

Congress' Responsibility

By David Lawrence

Military Functions Are Reviewed

Sooner or later, the Congress of the United States will have to assume the responsibility specifically imposed by the Constitution to see to it that military functions are performed hereafter by military men and not by civilian officials.

Was the latest change in the Joint Chiefs of Staff David Lawrence a rebuff to Adm. George W. Anderson Jr., the head of the United States Navy, because he courageously refused to agree with the civilian secretary of defense on military policies essential to strategy? The episode has focused attention on the confusion in military planning which prevails today.

While the president is designated by the Constitution as the "commander-in-chief" of the armed forces, it is the sole duty of Congress "to declare war . . . to raise and support armies . . . to provide and maintain a navy . . . to make rules for the government and regulation of the land and naval forces."

Yet the role of Congress seems to have been relegated to that of an investigator after the damage has been done. Military men with an expert knowledge of strategy are not permitted today to decide what are the best weapons. Civilians, with eyes on the political effects desired by states with big electoral votes, make the final decisions.

The admiral had said unequivocally in his testimony that it was his duty as a naval officer to question the wisdom of the decision of the secretary of defense in awarding the TFX aviation contract.

As for the merits of this dispute, Congress is looking into them now. It seems unfortunate that an impression should be conveyed that Adm. Anderson actually is being punished for adhering to his sincere convictions as a military man.

THE WHITE HOUSE explanation is that several members of the Joint Chiefs of Staff in recent years have served only a single two-year term anyhow. But it has been taken for granted that competent chiefs still far away from retirement age could be given two terms.

It's noted, moreover, that on the same day that the termination of Adm. Anderson's service was announced, it was made known that Gen. Curtis E. LeMay, chief of the Air Force, would get only a one-year extension of his two-year term. He, too, had opposed the secretary of defense in connection with the award of the TFX contract.

What seems not to have been taken into account is the fact that, as long as the power to extend the tenure beyond the two-year term exists in a flexible form, a question will be raised as to why a competent and efficient military chief like Adm. Anderson wasn't continued in office, especially since he happens to be only 56 years old and his

successor, just appointed, also is 56.

The prevailing view at the Pentagon among military men is that Secretary McNamara is demanding absolute conformity to his views.

Sen. Richard Russell, D-Ga., chairman of the Armed Services Committee, has just said that Adm. Anderson's concept of the role of the Navy in today's national defense strategy is as sound as any he knows.

THERE HAVE BEEN conflicts between the civilian and military viewpoints under past administrations, too, but in a period of crisis in the world, it could be a grave mistake to change commanders unless some circumstance makes it absolutely necessary.

If there is such a circumstance, Congress is entitled to know it.

If the incident was the result merely of a failure to please the secretary of defense, the country ought to know the risks involved.

The simple truth is that the scheme for a unification of the armed services, which was instituted after World War II, has not worked very well.

The Korean War was really lost to the West because the joint chiefs were unduly influenced by civilian pressures.

During World War I and World II, on the other hand, the chiefs of the Army and Navy sat at the president's elbow. There was no one between them and the commander-in-chief.

The purpose of Congress in creating the Defense Department primarily was to secure co-ordination in many matters of administration, especially questions that are largely of a non-military nature. It never was intended that the secretary of defense would become virtually a commander-in-chief of the Army, Navy and Air Force.

But the formula now has been broadened to permit the secretary of defense to take over many of the duties of the commander-in-chief and, in effect, decide on the strategy that shall be followed. Thus he decides, for instance, what weapons should be bought.

SECRETARY McNAMARA, it has just been officially stated, made the recommendation to President Kennedy that Adm. Anderson be replaced and that Gen. LeMay be appointed for only one year instead of the normal two-year term.

High officers who dare to oppose the secretary can be deprived of promotions and otherwise intimidated. It isn't a healthy situation for the military operations of the United States. It could impair the morale of military and throughout the country.

A thorough investigation of the usurpation of power by the civilians in the Defense Department, from top to bottom, is really needed. For there is only one civilian who has been given the power under the Constitution to govern the military branch of the government, and that is the president of the United States — and there is no power in the Constitution which enables him to delegate military functions to anybody but his subordinate military officers.

Pesticide Report Due

By William C. Wing

WASHINGTON — A special report to the President on pesticides, believed to confirm many of the warnings in Rachel Carson's "Silent Spring," is bottled in committee several months after completion of the study.

The substance of the findings already has been communicated to President Kennedy, it is said. But the final text of this report, which is certain to effect the country's multi-billion-dollar chemical industry, still is being worked over.

A spokesman for the President's Science Advisory Committee, which will issue the report, said it should be ready for the President early this month. Kennedy can release the report to the public or withhold it, at his discretion.

THIS REPORT is, in some measure, one of the after-effects of Miss Carson's explosive book on the dangers of the widespread use of chemical poisons to control insect pests.

Dangers have been noted, or suspected, by scientists for many years and a special federal study was begun either before or at about the same time as publication of "Silent Spring," appeared, it created a climate of general concern. If the federal study was not inspired by the book, it undoubtedly assumed an increased importance in this new atmosphere.

The fact the study was under way was disclosed as the result of a question at a presidential press conference related to "Silent Spring."

A REPORTER asked if the President would direct federal

agencies to take a closer look at pesticides because of a "growing concern" about their use. Kennedy said the agencies already were taking a closer look, and added: "I think particularly, of course, since Miss Carson's book . . ."

The closer look began with a committee of the Federal Council for Science and Technology, one of several bodies concerned with the government's scientific policies.

The study then moved over to another of the bodies, the President's Science Advisory Committee, and became the specific responsibility of the committee's life sciences panel.

SCIENTISTS who made the study or worked on the report do not care to be identified at this time. But Dr. Jerome B. Weisner, the President's science adviser, is chairman of the PSAC, the FCST and the Office of Science and Technology. The report undoubtedly will carry his name.

were cast for several offices in East Liverpool in the primaries. But no one received sufficient votes to capture a nomination. State law provides that a write-in nominee must receive at least 15 per cent of the vote cast by his party.

If the nomination is for a ward post, he must receive 15 per cent of the vote cast by his party in that ward. If it's for a citywide post, he must receive 15 per cent of the vote his party cast throughout the city.

Many of the write-ins were so-called "joke votes," O'Hanlon pointed out. Since the GOP had no candidate for city solicitor, at least eight attorneys' names were written in on the blank ballot spot.

Meanwhile, a new check of the records disclosed that Tuesday was not the only time in recent years that Democrats have out-voted Republicans in a city primary.

A similar situation developed in the primary May 5, 1959, when Democrats cast 2,303 votes and Republicans had 1,860 voters.

In the voting, Tuesday, 1,964 Democrats voted against 1,925 Republicans.

Official Count Opens On Jefferson Voting

STEUBENVILLE — The Jefferson County Board of Elections was preparing its official vote count for certification for Tuesday's primary election in which John W. Targoss won the Democratic nomination for mayor. There was no race on the Republican ticket.

Targoss defeated Charles M. Pugliese 3,680 to 1,066. He will run against incumbent Mayor Andrew W. Miller, the GOP candidate, in the November general election. Miller received 1,620 complimentary votes.

Flash Fire Hurts 3 On Polaris Submarine

VALLEJO, Calif. (AP)—A spectacular but minor flash fire injured three workmen Wednesday on the \$45-million Polaris submarine Woodrow Wilson at a Navy construction yard.

Only the day before at Groton, Conn., another flash fire killed three workmen on the nuclear submarine Flasher, of the same attack type as the Thresher which disappeared April 10 in the Atlantic with 129 men aboard.

The Wilson fire, which caused little damage, was the result of a workman accidentally swinging a cable into contact with a live switchboard.

ROGERS — The volunteer fire department will meet Monday night at 8 at the fire station, Howard Wise, president, said.

Relief Director Since 1943

Mrs. Hickey To Leave Relief Post

East Liverpool's helping hand for the needy—Mrs. Margaret Hickey—is leaving the city relief office after 25 years for the balmy climes of Florida.

Mrs. Hickey, 519 E. 4th St., is retiring from the relief director post which she assumed in 1943 from the late Kenneth Shenkel, having been employed in the office as a caseworker since 1938. She will retire May 31.

APPOINTED originally by the late Arnold Devon, then mayor, Mrs. Hickey has served through various changes of city administration, in charge of the distribution of state poor relief funds and other aspects of city relief.

"I've always said I would write a book about my experiences," she said smilingly, looking about the neat office in the second floor of the Central Fire Station.

"I've had to be marriage counselor, advice giver, information expert, voice of conscience and other roles in this job," she recalls.

ALL TYPES of hardship cases come to the office which distributes between \$60,000 and \$70,000 in state poor relief aid annually. There are 284 persons currently on the relief rolls.

The relief office, which also has a caseworker, is in charge of surplus food distribution here, and handles initial cases of aid for the aged, dependent children and other types of relief which are referred to the County Welfare Department office.

Mrs. Hickey, a native of East Liverpool, also worked at the Patterson Foundry & Machine Co. before her marriage. Her husband, James Hickey, died in 1933.

SHE HAS a son, James Hickey

MRS. MARGARET HICKEY

of Minneapolis, and a daughter, Mrs. Robert Buchheit of East Liverpool.

Although she terms her post "a thankless task" and one in which she was called upon to serve 24 hours a day — with calls at her home at night — Mrs. Hickey said it gave her a warm feeling to be able to aid deserving people in need.

Mrs. Hickey submitted her resignation Wednesday to Safety-Ser-

vices Director Robert Owen. The director said applications for the post will be received at his office until 9 a.m. Monday.

Mayor Bert H. Goodballet today commended Mrs. Hickey for "a job well-done over a long span of years."

"We hate to see her go," the mayor said. "We are going to miss her, as she has done a fine job. She will be hard to replace."

Mrs. Cianni and Mrs. Clara Hall. Officers will be elected at the meeting June 4 with Mrs. Jividen of Grant St., Newell.

Hearing Held On Vets Club

Officials of the Veterans Social Club of Pennsylvania Ave. testified today in a Common Pleas Court hearing before Judge Joel H. Sharp in a bid to ease restriction placed by Judge Sharp on the East End Club.

Atty. Donald E. Smith, counsel for the club, advised Judge Sharp this morning the club has new owners and that Sam Johnson, former operator, no longer is connected with the organization although he resides in an apartment above the premises.

A curfew was placed on the club by Judge Sharp Aug. 1, 1962, after Prosecutor William Brokaw sought to have the club padlocked. The group now seeks full privileges of its D-4 permit, allowing to remain open until 1 a. m. EST.

Richard Pack, president, and Johnson were slated to testify this afternoon.

Atty. Smith explained this morning Johnson utilized the front door of the club to enter his living quarters, and that an interior stairway has been closed.

Robert Waters, secretary, called as the first witness this morning, told Judge Sharp there have been only two complaints concerning the club, so far as he knows, and both were from a neighbor, Robert Trbovich.

dual fuel oil, a burnable substance which can be used in place of coal for industrial purposes.

The plea to the President was sponsored by Sens. Edmund Sargus, D-Belmont, and Robert Zellar, R-Muskingum, both of whom represent coal-producing areas.

Sargus told the Senate residual oil is what remains of petroleum after gasoline, kerosene and light oils are extracted.

The St. Clairsville attorney asserted other oil-producing nations with very low wage scales are dumping millions of barrels of residual oil on the American market each year "at any price they can get."

Sargus contended the practice is unfair to American oil producers and to American oil producers who also have residual oil available for sale.

In other action, the Senate passed 30-1 a bill sponsored by Sargus that would require both living parents to file consent with applications made on behalf of a minor child.

Sargus said the bill is designed to insure notification of a parent who might not consent to the name change.

He said existing law provides only for one notice in a general circulation newspaper in the county at least 30 days prior to filing the petition.

Sargus pointed out that in a divorce case, for example, the parent with whom the child is not living might have no knowledge of the application.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: The whole town is talking about this and most people are as incensed as I am.

The approaching marriage of a young woman was announced recently in the newspaper. The girl flunked out of the University of Michigan and the following year returned home after attending Michigan State for a few months. Then she went East and got a job working in a department store. The newspaper announcement described her as a graduate of Radcliffe.

The girl's fiancé is a young man from New York. According to the newspaper announcement, he is a graduate of Yale. He says, "Pleased to meetcha," and "I'd radder have deez dan doze." My husband is a Yale graduate and he is furious.

Why don't newspapers check the facts? Do they print anything handed to them and assume it is correct? I'd like your comments and so would others in this town. —DONDE VERDAD.

Dear Dond: Some newspapers verify such facts but most newspapers assume that people are not going to lie about their education.

It's disappointing when people are dishonest but why are you "incensed"? You've lost nothing and they've gained nothing. This incident has made the family look ridiculous.

Financial Operation

Dear Ann: I was interested in the letter from the mother of a young dentist. He had just begun to practice and several of his relatives went to him for dental care.

When he sent them bills for his services they refused to pay. They said they were "helping him get experience" and that he should appreciate their willingness to take a chance on him.

You told the mother that a dental fee should be discussed with the patient before the work is done—relative or not.

What about physicians? Both my husband and I have had surgery recently. When the bills arrived we were shocked. We have friends who had similar operations and their bills were much smaller.

I've always felt it was beneath the dignity of a physician to talk about money, and it would be insulting to bring the subject up. What about this?—FINANCIALLY ANEMIC.

Dear Anemic: There is nothing "undignified" about money. In our society we need money to live. Hardly anybody barbers any more.

The cost of surgery should be discussed in advance. It may be impossible to anticipate complications which might make the procedure more costly but a reasonable estimate should be

given. And the patient should not hesitate to ask.

Teacher Baiter

Dear Ann: My husband reads your column every day but he will not admit it. Please print this letter. If he sees it in the paper it may help.

We have three children. The two older ones are grown and on their own. They were very bright in school and we never had even one phone call from a teacher or principal. The youngest boy is having a terrible time with his studies. My husband makes matters worse by arguing with his teachers.

Yesterday he got on the phone and told Jack's math teacher that she has it in for him and that his grades would be better if she weren't spiteful. You can imagine what this does to Jack's relationship with the teacher.

What can I do to get my husband to lay off?—WIT'S END.

Dear Wit's End: Nothing, probably. But you can go to school and talk to the teacher so she will know that Jack has at least one rational parent.

Ask her how you can help the boy to do better, and inquire about hiring a tutor.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamp, self-addressed envelope.

Keep In Trim

By IDA JEAN KAIN

Exercise Helps Route Excess Fat

Energy is highly prized — especially in middle age. Dieters, to have more energy, get a move on. Something dreary happens to your looks and to your vitality when you diet stringently but shun exercise.

To reduce a bit of control your weight without adequate exercise, you must subsist on very meager fare. On too little food you tire quickly. Sloth sets in, and atrophy follows. . . atrophy of body tissues and muscles.

The result is a drawn, depleted look — the bloom is off. You no longer look like your young, vigorous self; worse, you feel weary. What's the fun in living without zest and normal energy?

Exercise is the best way to take advantage of the natural responses of the body to burn fuel for energy. Today we have to take time, indeed, make time and find ways to get enough exercises. Walking is a natural.

A walk of a mile a day burns 80 to 100 calories, and it's a tonic. Swimming is perfect exercise, for it affords all the little and big muscles their rightful share of action.

GARDENING IS good exercise. If you are a heavyweight, talk with your own doctor about the amount and kind of exercise which is best for you.

What about calisthenics? They serve to tone and tighten the muscles. It takes so little exercise to keep in shape, provided

you exercise with some regularity. If you will hold the muscle contraction to a slow count of six (six seconds) you can increase your muscle strength surprisingly. Holding the contraction increases muscle tone — holding is toning. Breathe freely, do not hold your breath.

Instead of regarding exercise as a chore, look upon conditioning exercise as a means of keeping you from feeling bored. Inactivity leads to inertia and boredom. Wake up to the fact that boredom is deceptively tiring.

The happiest reducers are those who do not over-diet or under-exercise. Don't sell exercise short. The rewards of a small amount of regular exercise are almost beyond measure.

Midland American Legion Picks 2 To Attend Boys State

James White of Midland High School and Gary Brandt of Western Beaver High School were selected by Midland American Legion Post 481 Monday night to attend Keystone Boys State June 24-July 3 at Penn State University.

Leonard Castellano, chaplain, announced plans are being completed for Memorial Day services at the Veterans Memorial in Lincoln park and at the Veterans Pool, following a parade. Castellano also said committees have been appointed to mark the graves of veterans in the area with a geranium and a new flag.

W. E. Coble, War Memorial chairman, said his co-chairman, Councilman Lester Trainer, will present to Borough Council tonight a plan of proposed improvements to the memorial in Lincoln Park.

Coble said the post will hold a coverdinner Monday with the gold star mothers of Midland as guests at the post home.

George Bradshaw, team manager of the Post 481 entry in the American Legion Baseball League, reported its first game will be May 20 at Aliquippa. The first home game is scheduled May 28 with New Brighton.

John Wattingham, membership chairman, reported enrollment now totals 424.

Members were reminded that Tuesday will be Poppy Day and that the Beaver County Council will meet Wednesday with Post 19 in New Brighton. The post now has new 50-star flags for sale.

Woodrow Pfaff, who was appointed to head a nominating committee, said nominations will open June 3 with the election June 19.

Kennedy Cuts Finger While Slicing Bread

WASHINGTON (AP)—President Kennedy has a wounded finger as evidence that, when it comes to slicing bread, he would make a good butcher.

The President showed up at his news conference Wednesday with a small bandage on the middle finger of his right hand.

Asked for an explanation, he said: "I cut my finger when I was cutting bread, unbelievable as it may sound."

Presidential aides said Kennedy suffered the self-inflicted wound a week ago today when he raided the icebox for an early afternoon snack.

One White House staff member who sees the President almost daily said he was surprised to learn at the news conference about the cut.

Calcutta Grange Has 'Travelogue' For Its Program

A mock travelogue featured the meeting of the Calcutta Grange Tuesday night at the Grange Hall. Ellis Wright, master, presided.

The make-believe trip began in Harlem with Mr. and Mrs. Wright doing the twist.

The next place was Paris with Mrs. Doris Thompson and Mrs. Bertha Reynolds in a springtime skit.

Mrs. Ruth Palmer, lecturer, program chairman, played the part of the Irish washerwoman and did the Irish jig.

Mr. and Mrs. Wright performed an Hawaiian skit, followed with a Texan display by Harold and Wayne Thompson. The travelogue ended in Ohio with Carl Kirkbride as the participant.

It was announced that the bi-monthly officers' conference will be held Tuesday at 8:30 o'clock at the Butler Grange. The Columbiana County Demeter banquet is set for June 3 at 7:30 at the Calcutta Grange.

Comment on the inspection of the second degree and the year's activities was given by Jack Pozemel of West Point, deputy.

The Grange is serving several dinners, including the mother-daughter banquet at the Longs Run United Presbyterian Church Saturday evening. Mrs. Mary Catherine Rudibaugh is in charge.

The meeting opened with prayer and a reading by Mrs. Laura Kirkbride and Scripture reading by Mrs. Barbara Thompson. The group sang "My Faith Looks Up To Thee," with Mrs. Grace Thompson, pianist.

Mrs. Wright, former member of the Columbiana County Cancer Society, gave a talk on cancer.

Lunch was served by Mrs. Rudibaugh and committee.

Next meeting is May 21.

Barn In Lisbon Area Destroyed By Blaze

LISBON — Fire of undetermined origin destroyed a large bank barn on the Clement J. and Conrad Wolfgang farm on the Clark-Signal Rd., northeast of Lisbon Wednesday at 10:50. Lisbon volunteer firemen said they could save only a small corn crib nearby and keep the fire from spreading to the field.

The Clement J. Wolfgang family, who reside on the farm, were away at the time but a neighbor saw the flames and called firemen.

The loss included a corn picker, nitrogen fertilizer, hay and straw. A fire No. 3, 1953, destroyed the old homestead on the farm.

Firemen said they could see the flames in the sky before they arrived but couldn't save the barn as it had too much of a start. They remained for two hours to see that nothing else caught fire due to the heavy winds.

The loss was not estimated but is partially covered by insurance.

Willie Shoemaker rode 38 stakes winners in 1962. He won the two richest, the Arlington-Washington Futurity with Candy Spots and the Garden State with Crewman.

Woman Faces Life Sentence In Slaying

COLUMBUS, Ohio (AP)—A Columbus woman, Mattie Mae Lee, 54, faces a life sentence in Marysville Reformatory for the shotgun slaying Dec. 30 of William Shannon, 53, in his Columbus apartment.

Giants Blast Braves, Take 2-Game Lead; Bucs Fall, Reds Win

By BOB GREEN
Associated Press Sports Writer
One of the Los Angeles Dodgers' big concerns this season has been the hitting slump of Tommy Davis, who led the National League with a .346 average and 153 runs batted in last season. He's been hampered by leg injuries and is hitting only .227.

But Willie Davis, sometimes called the other Davis, suddenly has taken up the slack. In the last four games, Willie's had seven hits in 15 times at bat and has driven in five runs.

It's no coincidence that the Dodgers have won three of the four, including an 11-5 decision over St. Louis Wednesday night. Willie had two homers and a triple in that one, driving in three runs and scoring the one that broke a 5-5 tie.

San Francisco opened a two-game lead atop the standings with a 12-5 victory over Milwaukee's slumping Braves. Cincinnati edged

Houston 3-2, the Chicago Cubs bombed Pittsburgh 9-5 and New York's Mets downed Philadelphia 3-2.

The Giants, who have won eight of their last nine, rushed in seven runs on five hits and a couple of errors in the fourth inning at Milwaukee and breezed in. It was Milwaukee's fifth straight loss. Willie McCovey homered for the Giants, Frank Bolling for the Braves.

Veteran lefty Joe Nuxhall scattered seven hits in pitching the Reds past Houston.

The Cubs struck for four runs in the eighth inning, triggered by Nelson Mathews' homer, broke a 5-5 tie and went on to beat the Pirates.

Jay Hook struck out 10, allowed only four hits and set up New York's winning run with a ninth inning double against Philadelphia. Ed Kranepool's blooming double scored Rod Kanehl, running for Hook.

Chisox Gain First Spot; Yanks Lose

By MIKE RATHET
Associated Press Sports Writer
Don Rudolph turned in an amazing pitching performance and Don Lock hit a grand slam homer in the 13th inning for a 6-3 Senator victory over Cleveland in Washington Wednesday night.

Rudolph allowed only one hit—a single by Tony Martinez in the fourth inning—until the 13th when he began to tire.

In between he retired 25 Indians in a row—the equivalent of pitching 8 1/3 innings of perfect ball. He wound up with a four-hitter.

While Rudolph was turning in his masterpiece, the Chicago White Sox broke one up, shelling Kansas City's Ed Rakow for eight runs in the seventh inning after he had pitched perfect ball for six innings. The 8-3 triumph over the A's moved the White Sox into the American League lead.

Baltimore belted Boston 10-4 and knocked the Red Sox out of first place. Al Kaline's two-run ninth inning homer gave Detroit a 7-6 decision over the New York Yankees and Ken Hunt's tie-breaking homer provided the Los Angeles Angels with a 4-3 triumph over Minnesota.

The White Sox put together their eight-run outburst on six hits, three walks and two errors. Eddie Fisher went the distance for the victory, although tagged for a ninth inning homer by Norm Siebern.

The Orioles lashed 17 hits while Steve Barber managed to keep 12 Red Sox hits well spaced. Brooks Robinson led the Baltimore attack with three singles and a double and Jim Gentile chipped in with a homer.

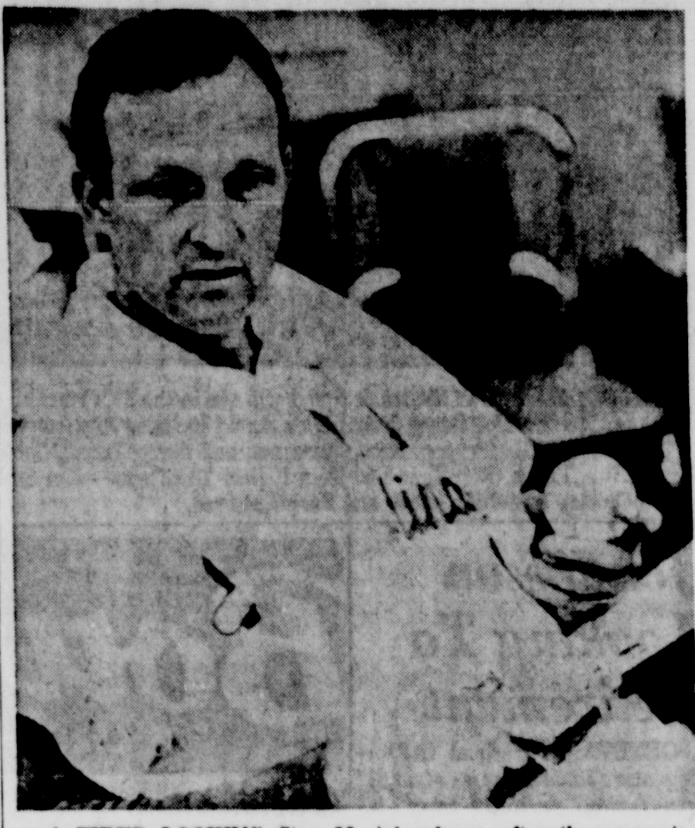

Kalene cracked his homer off reliever Jim Bouton after Norm Cash walked to open the last of the ninth. Tom Tresh had put the Yankees ahead 6-5 in the seventh inning with his second homer of the night. Yogi Berra and Cleo Boyer also homered for New York while Jake Wood connected twice and Bubba Phillips once for Detroit.

Hunt's eighth inning homer off Jim Kaat snapped a 3-3 tie, gave the Angels the three-game series, two games to one and dropped the Twins into last place.

Beavers Edged By Niles, 5-4

Brilliant 2-Out Rally In 7th Falls Short

A game Beaver Local nine battled right down to the wire by coming up with a courageous last-inning rally before bowing to Niles, 5-4, in the District Class AA championship game Wednesday at Youngstown's Borts Field.

Niles will represent the district in the regional tournament at Canton. The Dragons were runner-up for the state baseball title last year and now own a 20-1 record this season.

NILES became the second team to defeat Coach Flody Suarez's team this season as the Beavers left the tourney with a 10-1 mark.

Trailing 5-1 going into the last of the seventh, the determined Beavers staged a sizzling last-ditch effort.

THE RALLY didn't start until two were out. John Alulis, pinch hitting for hurler Walt Schukert, launched the bid with a single to left.

Bill Tychonievich followed with an infield single moving Alulis to second. The Beavers tried a dangerous double steal, which worked, and placed runners on second and third.

THIS SET the stage for second baseman Larry Ensinger who belted a single that drove in two runs. Ensinger made it all the way to third base when the centerfielder committed a two-base error.

Sophomore Dennis Horgor, hitting star of yesterday's game, came up with his third safety of the contest, a single through the box that sent Ensinger across with the third run of the inning and made the score, 5-4.

GARY BERHAR followed Horgor and hit a sharp line drive to the Niles second baseman who took it on one hop and threw out Berhar to end the game.

Niles had scored two runs in the first inning on a pair of doubles and a single then came up with two more markers in the third on a walk and two straight hits. The final and winning run by Niles came in the top of the seventh on two singles and a stolen base.

BEAVER LOCAL scored a lone run in the fourth inning on Horgor's home run, a blast that carried over the left fielder's head. Horgor wound up with three of the Beavers nine hits and drove in two of the four runs.

Schukert, who was the losing pitcher, went all the way for the Beavers and allowed 10 hits. He fanned four batters.

Weddell, the starting hurler for Niles, was the winning pitcher. Markley and Seiber paced the Dragons at the plate with three hits apiece.

Wilbur Staley is league president.

Detroit's Lary Heads Cutdowns

By The Associated Press
With former Detroit ace Frank Lary heading the list, more than a score of ballplayers were heading for the minor leagues today, victims of the annual May roster trimming in the majors.

By noon, Eastern Daylight Time, all major league clubs were required to be down to the 25-man player limit. The big league rosters will remain at that figure until Sept. 1 when the limit is eased again.

By far the most active of the teams was the Tigers, pre-season picks as American League contenders who have been struggling to avoid last place.

Much of the Detroit problem has been due to the inability of Lary to approach the form that made him one of the top right-handers in the league. Hampered by a sore arm last season and rusty because of limited work this year, Lary heads to Knoxville of the South Atlantic League to try to pitch his way back in shape.

The Tigers also recalled third baseman Don Wert and pitcher Mickey Lolich from Syracuse, while sending that International League club pitcher Bob Dostal and outfielder Purnal Goldy, both on 24-hour recall.

Some of the other "name" players involved in the cutdowns were outfielder Willie Tasby of Cleveland, optioned to Jacksonville of the International League; right-hander Eli Grba of the Los Angeles Angels, sent to Hawaii of the Pacific Coast League; and veteran catcher Hank Foiles, released by the Cincinnati Reds.

Golf Stars Open Today In Colonial

FORT WORTH, Tex. (AP) — Jack Nicklaus and defending champion Arnold Palmer head a 66-man field today in golfers' \$50,000-Colonial National Invitational.

There are 61 professionals, including six former Colonial champions, and five amateurs, including the national champion Labron Harris Jr., playing in the seventeenth Colonial.

Nicklaus, the National Open champion who has won three tournaments this year, including the Masters, and leads the money-winners by \$20,000, is the favorite as a matter of course. But Palmer, who won last year in a play-off with Johnny Pott, and a half-dozen others are rated good chances of rushing past Jack to grab the \$12,000 first money.

That the par 70, 7,021-yard Colonial course can be had was demonstrated in a pro-amateur Wednesday when six players blistered par. Bob Charles, the New Zealand southpaw, cut out a 4-under-par 66, only a stroke over the course record, in leading the way.

Green Back With Indians As Brief Rebellion Ends

WASHINGTON (AP) — Gene Green's rebellion against the Cleveland Indians is over.

The 29-year-old strongman arrived from Los Angeles Wednesday night, sheepish and apologetic for his "trade me or play me" ultimatum and for jumping the club.

"It's all over now as far as I'm concerned," said Manager Birdie Tebbetts after conferring with Green. The suspension was lifted.

Tebbetts fined Green for missing the airplane out of Los Angeles Monday morning but was lenient.

Originally, the manager had said Green would lose a day's pay on Monday and Tuesday, the two days he was not with the club.

"I think we may not take his pay away for Monday," said Tebbetts. "But he's got to lose his Tuesday pay because we had a ball game that night."

Including the fine, loss of a day's pay and the airplane flight from Los Angeles he had to pay for, Green's finances were depleted by about \$400.

The Los Angeles Dodgers stole 198 bases in 1962. Maury Wills had 104. Willie Davis stole 32 times.

EVERYONE IS SMILING again as Gene Green (right) who left the Cleveland Indians Monday, dons his uniform in the Tribe dressing room as he chats with manager Birdie Tebbetts, prior to the game with the Senators Wednesday at Washington. (UPI Telephoto)

Win 8 Of Last 9 Games Even Buhl (0-For-88) Hits As Cubs Continue Winning

CHICAGO (AP) — From every corner in Chicago you hear: "How about those Cubs!"

The Northsiders haven't finished in the National League's first division in 16 years. Now they are challenging for the lead with a five-game winning streak and eight victories in their last nine starts.

Are they playing over their heads? It doesn't seem so. Rather they are just reaching their potential.

They are a running team, stretching singles into doubles and beating out tricklers. They are hitting — even pitcher Bob Buhl, who got a single Wednesday against the Pittsburgh Pirates for his first hit in 88 times at bat.

Their pitching—with Buhl, Larry Jackson and Dick Ellsworth as a big three backed by an effective bullpen — is holding up. Their defense is sparkling with 23 double plays, five of them pulled in subduing the Pirates 9-5 Wednesday.

Their grittiness is exemplified in a four-run eighth inning after the Cubs had tied the score with five unearned runs in the top of that inning.

They are shaking up the senior circuit. No longer are they pat-sies for the other clubs.

Glover, Playing Coach Of Barons, Decides To Quit

CLEVELAND (AP)—The front-office squabbles of the Cleveland Barons of the American Hockey League have taken a new turn with the resignation of Fred Glover, playing coach and the league's all-time high scorer.

Glover, a star here for more than a decade, decided not to accept a contract for the 1963-64 season from Bob Malaga, recently-appointed president of the Barons.

Malaga made the announcement Wednesday at a news conference, saying he had nobody in mind as a replacement for Glover.

Glover told newsmen at his home the decision was strictly his own.

Glover denied his decision to quit was influenced by either Jack Gordon, fired earlier in the week as general manager, or Paul Bright, a club director who was demoted from the presidency in favor of Malaga.

Hints from Heloise

— By Heloise Cruze —

Dear Heloise: Would you please see if you can locate the correct information on a problem that has been discussed many times in our neighborhood. Namely... what is the difference between white and yellow vinegar?

M. F. King

Dear Mr. King: Here is the answer to your question from a man who is in the vinegar business: "As far as I am concerned there is but one distilled vinegar and that is one which is made with grain."

"Some vinegars are made with acetic acid and sugar with coloring added and I believe that is what people are referring to as yellow distilled vinegar."

"Then, there are the apple cider vinegars that some people may think are yellow but some brands are actually red."

"Cider vinegars are made from apples. Recipes should either call for white distilled vinegar or apple cider vinegar."

"White distilled vinegar can be used for any cleaning or for all purposes. Some people may prefer apple cider for salads, canning, and so forth. But for myself I prefer white distilled vinegar made with grain for all purposes."

"Some types of vinegar are

stronger than others and may need to be weakened sometimes. "If distilled vinegar is made with grain instead of acetic acid, then it will state this on the bottle!"

"Grain vinegar is stronger and more expensive than acetic but goes much farther."

"I hope this information will help you."

WOODROW WILSON MATLOCK.

THANKS MR. MATLOCK. And gals... Heloise is now using white vinegar! I still like the yellow types for my salads though.

HELOISE.

DEAR HELOISE: To get a smoother frosting job done on butter or shortening-type frostings when icing a cake, I go over the newly frosted cake with a knife which has been dipped in hot water. This gives the cake a glossy smoother finish.

I removed some rust spots on some white things the other day by dropping lemon juice on the rust spot and holding it over the steam which came from my tea kettle spout.

MRS. E. G.

DEAR HELOISE: I removed

some permanent-type starch in some of my white things by soaking it in rubbing alcohol until the slipperiness disappeared and then washed it in hot soapy water. One must test the garment to see if it is safe to use alcohol. This is the only way I know to remove permanent starch.

FRIEND.

DEAR HELOISE: I see many people write that they have water marks on their furniture caused by moisture from a vase of flowers.

I wonder if they know... that if they slip a piece of waxed paper under the vase there will be no mark and thus save more troubles?

OLIVE.

DEAR HELOISE: I am using a new plastic garbage can to store my two weeks supply of survival food. In event of an evacuation notice, the can may be placed quickly in the car. When we arrive at the designated location (or as far as our gas will take us) the can can be emptied and used for storage of water.

Amendment Urged On Sunday Sale Bill

COLUMBUS, Ohio (AP)—Ohio's Senate Judiciary Committee, studying a House-approved bill to ban Sunday sale of real or personal property with exemptions for certain necessities, has been urged to amend it.

Suggestions made at a hearing Wednesday included specific exemption of radio and television stations, "little corner groceries" and car washes, and broadening of what may be sold at filling stations. But Judge Emmett Grabb of Massillon Municipal Court said the bill is specific enough to clear up some present enforcement problems.

Officers Cite Driver After Auto Crashes

A 43-year-old man was cited on a charge of driving while under the influence of alcohol after his auto struck a mailbox standard and plunged into a ditch Wednesday afternoon at 4:55 at Anderson Blvd. and Lemon St., police reported.

Robert I. Lutton, 161 Vernia St., Beechwood, was cited following the mishap that damaged the mailbox at the property of Martha White of Lemon St., officers reported. His 1956 four-door sedan was not damaged.

Police said Lutton told investigating officers: "I had been drinking and ran into the ditch."

After hearing evidence in the case this morning, Municipal Judge Samuel M. Chertoff reduced the charge to being in physical control of a motor vehicle while under the influence of alcohol.

He fined Lutton \$200 and costs and suspended his driver's license for 90 days.

A parked auto was damaged by a drifting truck in another mishap Wednesday at 10:55 a. m. on Grant St. 20 feet west of St. John St., officers said.

A 1946 model truck owned by the Milliron Co. of E. 2nd St. drifted from a parking place, coasted about 10 feet and hit the rear of a 1958 sedan owned by Robert Lucas, 324 Grant St., officers reported.

Thomas Mackey, 32, of LaCroft, the truck driver, told police he parked the vehicle and blocked the wheels while loading. The brakes apparently slipped and allowed the truck to drift, officers said.

The crash damaged the trunk, left rear fender and tail light of the auto, but the truck was not damaged, police said.

A collision at Erie St. and Maryland Ave. Wednesday at 3:54 p. m. damaged a 1956 four-door sedan driven by Maxine D. Quinn, 17, of 529 Bridge St. and a 1958 two-door sedan operated by Adam A. Schwerha, 49, of 313 Carolina Ave., Maplewood, police said.

The young woman said she was turning off Maryland Ave. onto Erie St. The Maplewood man told police he was waiting to pull onto Maryland Ave. from Erie St. when the Quinn car struck his auto. The front bumper of Schwerha's car was damaged. There was no damage to the Quinn auto, police said.

Musial Cracks Ruth's Extra Base Hit Mark

ST. LOUIS (AP)—Babe Ruth's career high of 1,356 extra base hits went out of baseball's record, books Wednesday night when Stan Musial walloped a fourth inning homer against the Los Angeles Dodgers.

The wallop gave the St. Louis Cardinal star a total of 1,357 extra base hits, breaking the tie he gained last week with the old time Yankee slugger.

Musial now holds or shares 42 National League records and 15 major league marks.

Jaycees Finish Plans For Post-Prom Party

The East Liverpool Jaycees announced today arrangements have been completed for the annual post-prom party after the annual Junior-Senior dance Friday, May 17.

Paul Seckman, chairman, said the party will be held at Westgate School after the dance ends at the Memorial gymnasium.

Professional entertainment has been obtained for the students and the program will include food, refreshments and dancing, Seckman said.

The entire event will run from midnight to 6 a. m. A curfew waiver has been obtained for the students from city officials.

The Jaycees will park the cars for the boys and their dates. The driver of each car will be given a ticket and the car keys will be put in an envelope with a corresponding number. They may claim the keys when they leave.

Seckman pointed out that none will be allowed to return to the party if they leave before it ends. Jaycee wives will serve with their husbands in acting as chaperones.

The students will not be permitted to leave the building to smoke or for any other reason unless called for by their parents, he said.

The tickets this year will be \$4 per couple. This is used to help defray the cost of the food and the entertainment.

The party is sponsored by the Jaycees each year in an effort to keep the students off the highways and out of area night clubs.

They pointed out the students can receive more for their money by attending than by going to a club. The same type of professional entertainment is provided as offered at any club and there is no danger of having to travel the highways late at night.

The students are given the opportunity of selecting the entertainment they desire and help plan the menu.

Seckman's committee includes Dave Kennedy, Carl Pelini and Harold Bricker.

City Man, 21, Admits Theft

Donald (Butch) Useton, 21, of Belek St. pleaded guilty today in Municipal Court on a charge he stole two electrical appliances and a suitcase valued at a total of \$25 when he entered a friend's apartment with a key last December.

Judge Samuel M. Chertoff sentenced Useton to a 30-day term in County jail, but suspended the term on condition that Useton pays the costs, is of good behavior in the future and supports his family.

Lt. William E. McDaniel said Useton admitted he stole an electric can opener, a portable mixer and a suitcase owned by Victor D. Smith, 416 Monroe St. Using a key, Useton entered an apartment at 344 W. 5th St. occupied by a friend of Smith's, the officer said. The appliances had been wrapped as Christmas gifts and stored in a clothes closet, Lt. McDaniel related. The theft allegedly occurred Dec. 18-20.

Questioned by the court, Useton told Judge Chertoff he recently returned from California.

Lt. McDaniel said Hancock County deputies obtained a statement from a Newell girl that Useton presented her with the two appliances as gifts. He said he "bought the appliances wholesale, so there was no guarantee with them," she related in the statement.

Final plans for the annual spring camporee May 24-26 were outlined at a meeting of the Cherokee Boy Scout District camping and activities committee Tuesday night at the offices of the American Vitified Products Co. in East End.

Bill Rayburn, camping and activities chairman, presided.

The session will be at Camp McKinley near Lisbon and has been named the "Black and Blue Commando Camp."

Robert Gray, district executive, as co-chairman.

Paul Calhoun was named safety inspector and Ed Bayless was appointed inspection chief. Bayless will be assisted by Wilbur Staley.

Lester Hissam and Bernard Locke will be in charge of supply and food.

The camp will be the first of its kind in that it will be set up as two opposing armies. Each will prepare an obstacle course for the other.

The courses will be set up from materials available such as fallen trees, rocks, ropes, water, etc. Each will have at least 15 obstacles.

The winning side Saturday night will receive an award and the losers on Sunday morning will receive an award.

Scout leaders are to present a list of their scouts a half hour before arrival. The list is to be submitted to Rayburn.

Judging will be on safety, working together, originality, camp site, time and personal cleanliness.

Sunday chapel services will be held after the scouts prepare their breakfast.

A tug-of-war will be held after cleanup.

The camp will open at 5 p.m. Friday, May 24, and close Sunday after lunch.

Shuts Dillonvale Liquor Agency

COLUMBUS, Ohio (AP)—State Auditor Roger W. Tracy says a state liquor agency at Dillonvale in Jefferson County has been closed as a result of an \$8,324 shortage there.

The auditor also said action may be taken against four state examiners who apparently failed

to notice empty liquor cases in previous audits. Tracy declined to identify the examiners pending further investigation.

He said the agency is one that has been operated by Mrs. Mary Sebring, adding that she signed an affidavit in which she said she used the money to pay medical expenses.

The auditor said the shortage was discovered during an audit he ordered when he learned the agent was in financial difficulties.

Cite Dwindling Business

Expense Account Ruling
Irks Hotels, Restaurants

NEW YORK (AP)—Dwindling business blamed mainly on changes in income tax expense account deductions has given the hotel and restaurant industry a king-sized headache.

In addition to eliminating many deductions previously allowed on grounds business was involved, the rules, according to hotel and restaurant people, are so confusing no one is sure what they mean.

Businessmen consequently have put the brakes on expense account spending.

Hardest hit are night clubs and the more expensive eating places—where a customer might be entertained or a deal negotiated—and the big hotels catering to convention crowds.

Unemployment among workers in the industry is steadily rising in many cities.

People are becoming more price conscious. They are ordering cheaper dishes, fewer drinks and looking at the tab more carefully.

"It's hurting, and hurting bad," said a spokesman for the Tennessee Restaurant Association, which reports business off 6 to 15 per cent. "It likely will get worse before it levels off."

"Collapse is a good way to explain it," complained manager Joe B. Callahan of the Benson Hotel in Portland, Ore., which has been affected "seriously." "The traveling people no longer bring their wives."

"Restaurants are cutting expenses every place they can—entertainment, food, help, even turning off more lights," said Sherman Billingsley, owner of New York's Stork Club. "The business will never be the same again."

His business is off 30 to 40 per cent and he said half of the restaurants in New York would have to close if their creditors decided to clamp down on overdue food and beverage bills.

In San Francisco, Charles F. Delano, executive vice president of the Golden Gate Restaurant Association, commented:

"Some of our members report losses of 15 to as high as 60 per cent in the first two months this year. Patronage is falling off

Some big spenders are becoming little spenders.

The ultra-smart spots with exotic foods, some predict, will have to tone down or go out of business.

Although the new tax regulations are catching most of the blame, other factors also mentioned by some persons. These include general retrenchment following the stock market decline last year, competition from motels, overbuilding of hotels and increased air travel and super-highway building, making it possible for people to visit other cities and return the same day without an overnight stop.

Complaints that the slump is having a critical effect come from every direction.

"It's hurting, and hurting bad," said a spokesman for the Tennessee Restaurant Association, which reports business off 6 to 15 per cent. "It likely will get worse before it levels off."

"Collapse is a good way to explain it," complained manager Joe B. Callahan of the Benson Hotel in Portland, Ore., which has been affected "seriously." "The traveling people no longer bring their wives."

"Restaurants are cutting expenses every place they can—entertainment, food, help, even turning off more lights," said Sherman Billingsley, owner of New York's Stork Club. "The business will never be the same again."

His business is off 30 to 40 per cent and he said half of the restaurants in New York would have to close if their creditors decided to clamp down on overdue food and beverage bills.

In San Francisco, Charles F. Delano, executive vice president of the Golden Gate Restaurant Association, commented:

"Some of our members report losses of 15 to as high as 60 per cent in the first two months this year. Patronage is falling off

sharply and its causing layoffs. There's confusion about the tax regulations. Your businessman doesn't really understand."

"Business has been awfully slow," said Chick Hedrick, owner of the Copa Atlanta, a plush night spot in Atlanta, Ga. "We just can't get people out. Everybody says business is off."

CAP Resuming
Hunt For Plane
With 3 Aboard

COLUMBUS, Ohio (AP)—The Ohio Civil Air Patrol resumed a search today for a lost plane with three Virginians aboard.

A week-long search had been suspended last Sunday.

First Lt. Ted Duchin, information officer for the CAP's Group 8, said "we think we have some pretty good leads from the Mansfield area."

The plane, en route from Marion, Ind., to Franklin, Va., disappeared April 29. Aboard the single-engine were James Carter, pilot, of Franklin, and R. L. Tullough of Emporia, Va., and H. B. Brown of Skippers, Va.

Some 20 planes and 83 fliers participated in the search over a 25,000-square-mile area in the state before it was called off Sunday.

Contracts For Medina
Freeway To Be Let

CLEVELAND (AP)—The center line of the Medina Freeway has been set and contracts for the highway should be let this year, a state highway official has told city planners.

Charles M. Yurick, division engineer for the Highway Department, said Wednesday contracts for the Willow Freeway and Outerbelt East also are expected to be let this year. Construction contracts will total about \$40 million for the three highways.

The Medina Freeway will bring I-71, now completed as far as Ohio 18 east of Medina, into downtown Cleveland and is scheduled for completion by 1966.

West Virginia
Girl Slain In
Brutal Attack

CAMBRIDGE, Mass. (AP)—A curtain of fear hung over the Greater Boston area today in the wake of the brutal slaying of a 26-year-old music student found in her apartment off Harvard Square.

The body of Miss Beverly Samans of Beckley, W. Va., a graduate student at Boston University who was preparing for an audition with the Metropolitan Opera Co., was found Wednesday night.

The slaying revived fears caused by the eight unsolved stranglings of women in Greater Boston since June.

Dr. Peter A. Delmonico, medical examiner, said cause of death was a stab wound through the heart. There were 15 stab wounds on the body, he said.

"A person who would inflict brutality of this sort was not of sound mind," Delmonico said. The doctor said there was no evidence of rape.

Two kerchiefs and a nylon stocking were knotted around the victim's throat in an apparent strangling attempt. But "they did not cause death," the doctor said. He placed the time of death as sometime after 11 p.m., Sunday night. A neighbor reported seeing the victim alive at about that time. Miss Samans' body, clad in a negligee, her hands tied behind her back, was found on a bed in her two-room apartment by police after they were called by Oliver Chamberlain, 33, an acquaintance of the girl.

Police said Chamberlain told them another man, not identified, called him and said he had received no response at the girl's apartment.

There was no sign of a struggle or of forced entry, police said. They found the front door unlocked.

The brunette student, who lived alone was last reported seen Sunday, police said.

Newell Cleanup
Starts Saturday

A Newell cleanup campaign, sponsored by the Women's Club, will begin Saturday with collection of paper along the streets by the Boy Scouts and Camp Fire Girls.

Mrs. Donald Thornberry, chairman of the club's community improvement committee, said trucks donated by private firms and individuals, will haul trash May 18 and May 25.

Mrs. Thornberry is assisted by Mrs. George Cawthon. A. R. Webb will be in charge of the scout project.

\$115,000 Damages
Awarded Ohio Man

AKRON, Ohio (AP)—A common pleas court jury has awarded \$115,000 in damages to Douglas Yerrick, 20, of Uniontown, who lost much of the vision in his left eye in a collision between his car and an East Ohio Gas Co. truck.

The damages awarded Wednesday were for injuries Yerrick suffered in the accident near Hartsville Sept. 18, 1961.

Centerfielder Albie Pearson is the only member of the Los Angeles Angels who has been in the opening day lineup all three years of the team's existence.

Republic Steel
Sets \$27 Million
Modernization

FLEMINGTON, N. J. (AP)—Announcement of a new \$27-million modernization program highlighted the Republic Steel Corp. annual shareholders meeting here.

T. F. Patton, president, told stockholders Wednesday the principal improvements under the new program will involve the 98-inch strip mill in Cleveland. New pickling and coil shearing lines are to be installed, there will be improvements in a 98-inch temper mill and coil annealing facilities, and new plate production facilities are planned which would increase plate capacity to half-inch thicknesses.

At Warren, Ohio, where Republic put a new 56-inch strip mill into operation two years ago, additional annealing facilities are to be installed.

Patton said an ultra-modern electronic testing and inspection system will be installed at Canton, Ohio, where high grade alloy steel bars are produced.

These improvements are in addition to a \$100-million modernization program announced by Republic recently.

Junior Editors Quiz on
BENJAMIN FRANKLIN

QUESTION: What part did Benjamin Franklin play in the Revolutionary War?

ANSWER: Franklin played a most important part; many historians feel that without his efforts the war might have failed. Franklin was the son of a poor soap maker who could not afford to send him to school after he was 10. But the ambitious boy educated himself by reading. Apprenticed to a printer, he soon owned his own print shop and began to publish the Pennsylvania Gazette (which later became the Saturday Evening Post) and "Poor Richard's Almanack," which became famous for its witty sayings, such as "God helps them who help themselves."

Soon Franklin became Postmaster General of the Colonies and as tension developed with England he was called on over and over to explain the American point of view. He went to England and tried to keep the peace but found this was impossible. Back in America, he drew up a plan for confederation of the colonies and helped draft the Declaration of Independence, during the signing of which he remarked, "we had better hang together or we will all hang separately." But his greatest contribution was negotiating an alliance with France. Without the help France gave us, our nation might not have been strong enough to achieve victory.

FOR YOU TO DO: We illustrate Franklin's famous experiment with lightning (1). He invented bifocal glasses (2), founded a hospital (3) and a university (4). Can you think of a useful invention of his connected with heating?

Ray H. Zumwalt of Bolivar, Mo., wins \$10 for this question. Mail yours on a postcard to Junior Editors in care of The Review, and you may win \$10 or a set of Britannica Junior Encyclopedias.

Out Of The Air

By ALAN GILL

TV Needs Some Straw Hat And Cotton Candy

We realize that summer television must indulge itself in repeats for financial reasons (the production sheets are balanced only after the second go-round), for the occasional esthetic kick of it (trot out the better documentaries, Eric, for an encore), and out of sheer exhaustion (no need knocking one's brains out, is there, when nobody's watching anyhow?)

But I feel that the networks could get a lot more people to tune in on a hot night if, once in a while, something fresh and summery were allowed to bloom among the reruns.

AND TV would be doing itself (as well as its audience) a favor by turning summer's nighttime hours into a kind of show business gymnasium, in which new writing and performing talents would get a hearing and a workout.

The theater goes straw hat in July and August. So should television. But the only summer stock we get on TV is local; while the kids kick up their heels on WKID-TV, the networks seldom work up enough energy to shoo the flies away.

In mid-June, for example, the CBS affiliate in New York will offer a local Shakespeare-in-the-Park production of "Anthony and Cleopatra." (Last summer, its "Merchant of Venice" went on the air and was a popular and critical wow.)

ACROSS the country, meanwhile viewers will be getting a repeat (it's likely) of a melodrama (perhaps) that wasn't much good (probably) to begin with.

On network TV, there will be no sitting under the stars and hearing a bit of the bard, which is just plain wasteful. There are local Shakespeare groups all over the country — darned good ones, too — who could add much to our warm-weather pleasures.

Among the other gypsies wandering across our theatrical landscape this summer by various names — the Second City, the Billy Barnes troupe, the Premiere players, the Establishment, etc. — and who take a bully-boy swing at everything that is sacred, dear and vulnerable.

THE ENGLISH have put such a troupe on the BBC, calling their show "This Is the Week That Was," and it's the smash of the season over there. Why don't we try a little satire in our own precincts?

A New York station again is taking a crack at satire this month with a half-hour special called "What's Going On Here?"

produced by a firm that calls itself the South Sea Trading Co., and performed by some young rabble-rousers from the Second City, Establishment and "Beyond the Fringe" groups. Network? Not on your life!

David Susskind, incidentally, has just emerged from a head-on collision with a man who runs a New York independent station with the announcement that his "Open End" talk show has lost its local outlet.

That seems a shame, because his last three telecasts of the season are to feature an Establishment revue, a Second City revue and a Premiere revue.

I'M NOT forgetting, though, that five of the CBS affiliates — those in New York, Chicago, Los Angeles, Philadelphia and St. Louis — have been engaging in a "Repertoire Workshop."

They've been exchanging locally produced shows ranging from dance recitals to documentaries, all of it experimental and some of it good.

I understand the post-mortem performed upon a defunct jazz musical, "The Ghost of Mr. Kicks," was fine, though I didn't see it. I did see the production of Jules Feiffer's painfully funny play about atom bombs and suburbanites, "Crawling Arnold," however, and I hope we can get more of Feiffer on TV before the big bomb drops on us all.

Along with reruns, that's what summer TV should be giving us — Feiffer, the Second City, Shakespeare, root beer, a couple of franks, and hold the relish, please.

Student Selected As Delegate For Boys State Event

The candidate for Buckeye Boys State in June was announced at a meeting of Glenmoor American Legion Post 736 Tuesday night.

Russell Turner, adjutant, said John William Tyconievich, a student at Beaver Local High School, will be sponsored by the post. He is the son of William Tyconievich of the Clarkson-Pancake Rd.

First nomination of officers was held. The election will be May 21.

Twenty-five attended. Robert T. Adams and Gilbert Burns were accepted as new members.

Bernard Wright, commander of Salineville Post 442, was a guest. He announced his candidacy as second vice commander of the Columbiana County Council. County officers will be elected Friday night at East Liverpool Post 374.

William Fletcher, first vice commander, presided.

Gene Wettstone, Penn State gymnastic coach, owns a dual meet record of 100 wins and 31 setbacks.

Findlay Bus Service

To Be Discontinued

FINDLAY, Ohio (AP)—The city of Findlay is losing its bus service, Mayor William Carlin says. The Findlay Bus lines, a private company, told the mayor it is closing down after today due to lack of patronage and heavy repairs on the buses.

The line started serving this city of 32,000 persons last December with five buses. Prior to that time the line had provided service for Marion.

Working Mother Problem Discussed

More than eight million mothers with children under 18 belong to our working force. Writing in a magazine for March, Margaret Albrecht Gillmor says that before deciding "to work" a mother should ask many questions:

What kind of a job does she want — full-time, part-time, temporary, seasonal or working at home? Part-time employment may be poorly paid or hard to find. Full-time may be wearying. Working at home may give her more time with her children but not the get-away-from home feeling she craves. While most mothers work chiefly to earn money, Mrs. Gillmor observes some others give as reasons present independence or future security, desire for higher standard of living, drudgery or loneliness of home-making, low status of being "just a housewife," satisfaction from work itself or status from a career.

If she wants to escape household monotony, she may find only a different kind of monotony in certain factory jobs. Looking for prestige and recognition, she must expect to fight for it and to meet with the limitations which still hamper working women. Regardless of the motive, there are certain considerations relative to success for a working mother, says Mrs. Gillmor — she needs to have her husband on her side and his approval of her working. She needs to feel peace of mind about the children.

"Is it hurting the children?" may gnaw at her heart. Mrs. Gillmor says there's no definite conclusions about this yet that apply to all working mothers and their children, but that studies indicate "that if the working mother arranges for her youngsters to have warm understanding, proper care in her absence, the effect of the single factor of material employment, if any, will be small."

FURTHERMORE, the working mother needs to consider the time and energy her employment will require and be willing to adapt herself accordingly.

Here let me add a warning I have made before in this column to the working mother of the child of elementary school age — that he needs in her absence as dependable protection as the preschool child and that he can't be left to fend for himself.

A Welcome To The Shriners

More than 400 red-fuzzed Shriners of Cleveland's Al Koran Temple will stage a full-dress parade here Saturday.

As Potentate Paul Chevallard has said, "We will be justly proud to meet our friends in East Liverpool and surrounding communities and wish to give them an opportunity to meet us as much as we want to meet them, since many of our Shriners reside in the area."

Speaking unofficially for the city of East Liverpool, may we say the feeling is mutual. The local Oriental Band has provided many enjoyable moments in parades here and elsewhere and it will be equally enjoyable to see other Shrine units in action.

Shrine leaders have found that all work and no play tends to make Jack a dull boy. So they have mixed in the fun with the more serious business of supporting and maintaining 17 crippled children's hospitals throughout the nation.

Names Make News

That time-honored expression of the newspaper profession that "Names make news" has proven true again.

The "names" in this case are those of Mrs. Margaret Hickey and R. M. McFarland.

Mrs. Hickey will retire as East Liverpool relief director and Mr. McFarland as principal of Chester High School.

Each has done an exceptional job in a chosen field. And both can look back with satisfaction on their efforts as they bid a reluctant goodbye to positions to which they have given so much over the years.

On The Eve Of Perspective

During the long countdown this month before Astronaut Leroy Gordon Cooper is launched on a 22-orbit flight around the earth, he will have time to muse on what his fellow astronauts have told him about space. He knows what to expect.

When he is up there on the fringe of terrestrial gravity, scudding through space at more than 15,000 m.p.h. Maj. Cooper will note the same things that impressed themselves on the awareness of his predecessors.

The earth from which he came and to which he will return has been transformed from a level surface—the man's eye view—into a sphere. It is a ball that binds his Mercury capsule into an orbit.

Only the largest topographical characteristics are visible, if anything at all can be seen. From space, earth's visible features are the Asiatic land mass, the American continents, Africa, Australia and the polar ice caps.

Not The Money, Just The Principle

Only two votes were cast against a resolution in the U.S. House of Representatives to curb junketing expenses.

With 384 affirmative votes, the resolution is expected to draw similarly strong support in the Senate. It's one of those propositions no one would want to oppose anyway. It will let everybody breathe easier.

Representatives and senators can't really be blamed for most of the junketing expenses that have been disclosed. They were spending "counterpart funds."

These funds are available to them under foreign aid agreements. They are the only way the United States can get any direct return on the huge sums it has spent on foreign aid in some instances.

A junketeering representative or senator always can reassure himself when spending this money that it behooves him to get all

Is Impatience Anti-American?

The earnest plea in Birmingham by all the city's most thoughtful citizens is for maintenance of law and order. Nothing is to be gained if the police lose control. That would be revolution. Birmingham wants no revolution; it wants just the opposite.

But for Negroes in Birmingham and other places where law and order must be maintained at the disadvantage of their race, law and order can become the essence of irony in the struggle for civil rights.

When Negroes ask for civil rights that have been denied them, they are evincing interest in law and order, too. When they are told to be patient and not cause trouble, they are given the impression that impatience has become a form of anti-Americanism. They

Purely Personal

I am tickled by the pulling power of Casey Stengel's losing New York Mets, because it proves is what should need no proof — that people pay to be diverted from their cares, not necessarily to see a winner. The Mets are good diversion, though losers.

Whenever I see Southern policemen manhandling Negroes, lately with the assistance of dogs trained to attack on command, I wonder where they find candidates for these jobs and what the policemen think about their employment. Do they enjoy their work?

It does not seem likely to me that Nelson A. Rockefeller's divorce and remarriage will have any effect on his chance to be president. If it happened, Rocky and Happy would be a fitting addition to Jack and Jackie, Ike and Mamie, Harry and Bess and Franklin and Eleanor, as far as names are concerned.

Don't tell this to the United Nations, but some of us couldn't care less about war between Haiti and the Dominican Republic. If they want to fight, we should stand back and encourage them to get it out of their systems, instead of trying to coax them out of it.

I have no opinion about the talent of Monty Woolley, the actor who died the other day. But I have a strong opinion about his beard, which I admired. It must have been worth its length in pearls as a trademark.

People always talking about "cleaning out city hall" may be interested in an incident in San Francisco, where a city postman broke into the city hall, turned on the fire hoses

and had the place four inches deep in water before they knew what he was up to.

The most disconcerting thing about Adam Clayton Powell, in my opinion, is his urbane refusal to go on the defensive about accusations of wrong-doing. Rep. Powell is decidedly his own man, with no disposition to get into a back seat for anybody on any account.

The fight over legislative apportionment is embarrassing, whether it concerns Congress or a state legislature, because it reveals how many people do not believe in representative democracy either as a principle or as a practice.

I didn't know until I looked it up that "nausea" is pronounced "noshea" instead of "nozzea." Things like this make you wonder how many more words you must be mispronouncing.

The most interesting thing to me about horse racing is that with few exceptions the horses don't want to race; the competition is among the jockeys. Makes me wonder why they can't make horses chase a bag of oats, the way racing dogs chase a rabbit.

Some kinds of work are harder to bear than others, as when a windstorm blows down a tree and the mess must be cleaned up, though the work this entails was not foreseen and cannot be fitted into a spring-time schedule.

It's a funny thing. We talk about individualism's importance in America but we have no use for nonconforming individuals. Yet, individualism has no meaning without tolerance of nonconformists.

Education Seen Answer To Race Issue

By DAVID LAWRENCE

Human nature hardly can be repealed by statute. Education and better communication between segments of the community can help to improve relations between groups. Violence and demonstrations that provoke riots can only produce tensions and make worse the relations between racial factions.

These observations, which take into account the gravity of the race problem in America, have been expressed again and again in the past. Unfortunately, the net result of most of the public demonstrations has been more and more bitterness and a retardation of real progress between peoples of different color.

The Birmingham demonstrations now have been given a certain kind of validity by President Kennedy as not involving violation of any federal statute and as not furnishing any basis for federal intervention.

This is somewhat different from the continued use of federal troops in Mississippi to quell threatened demonstrations long after a federal court order compelling the admission of a student to the University of Mississippi has been obeyed.

The President expresses instead the hope that the State of Alabama will maintain law and order and that the community of Birmingham will find some solution of its own to improve race relations.

This is a tolerant position for Mr. Kennedy to assume toward

the people of Alabama. It's strikingly different from the attitude of the national administration toward the people of the State of Mississippi.

MR. KENNEDY, at his news conference on Wednesday, spoke of "federal statutes" not being involved in Birmingham but there was none violated in Mississippi either.

Congress has passed no law requiring integration in the public schools. Yet the 14th Amendment says Congress alone can pass the legislation to enforce the provisions of the amendment. It's questionable whether the Supreme Court was right in ignoring the absence of any federal legislation dealing with desegregation of public schools.

The Birmingham demonstrators were not willing to wait even for court orders to be issued and for

a determination to be made in the customary way. Instead, demonstrations were organized in the last few days and thousands of participants paraded without local permits in order to provoke arrests and publicize the disorders.

It's reported that one object was to assist the money-raising campaigns of certain private organizations throughout the country which back integration.

Under the constitutional provisions sanctioning freedom of speech and freedom of assembly, the Supreme Court of the United States has again and again ruled that such privileges are not unlimited.

Justice Oliver Wendell Holmes, in a famous decision of the Supreme Court, said it is not freedom of speech to cry "fire!" in a crowded theater. This rule of law limits the right to incite people to violence. The demonstrations in Birmingham were undoubtedly planned with the idea that they would attract nationwide attention because the police would have to stop them. After Birmingham, the riot will be repeated in other major cities.

It isn't the United States alone that is having race trouble. Human nature is the same in Britain, for instance, as it is in this country.

THE EXHORTATIONS and pious hopes expressed there are the same as in America.

On Tuesday of this week, the London Times published an editorial from which the following is an extract:

"The color problem in Britain is not becoming easier; it is becoming ever more serious. Every so often it bursts out or boils over. This is what is happening now over the Bristol bus boycott."

"Mr. I. R. Patey, general manager of the Bristol Omnibus Company, declares that it is unfair to accuse him of operating a color bar. His company employs West Indians in its garages and depots. But he refuses to change its policy of not employing colored people as bus crews. If he did, he thinks that fewer white people would want the job and it would become difficult to run the services. It is this situation which has led to the boycott by Bristol's colored population of the company's buses."

"Churches and trade unions have been drawn into the dispute, as have the Jamaican and Trinidadian high commissioners."

"This dispute is symptomatic of the ostrich-like bewilderment with which so many people in Britain contemplate the color problem in their midst. In general the West Indians and the rest have come to Britain because there were jobs to be done which would not have been done otherwise. . . ."

"THE GOVERNMENT have — reluctantly, it is true — adopted the negative measure of controlling the future entry of these immigrants under the Commonwealth Immigrants Act. But positive measures are more necessary. This means that persistent efforts have to be made in the educational and social fields to fit the immigrants into their new surroundings. In this respect it is noteworthy how different has been the approach in different regions where colored communities exist: how successfully race relations are managed in one place and how they are botched or neglected in others. . . ."

"Often the going is hard; but it will certainly be much rougher if prejudices, restrictions, and merely negative social attitudes are allowed to gather strength in this sensitive and all too menacing field."

'They Don't Make Revolutionists Like They Used To.'

Richard Nixon Eyes GOP 'Advisor' Role

By VICTOR RIESEL

Richard Nixon soon will become chairman of the board of a large corporation. His salary will come close to \$100,000 a year. The firm deals in pharmaceuticals, cosmetics, toiletries and has been diversifying recently.

Some of its offices are in nearby suburbs, some in the Midwest and others in Europe — for it has an international division.

That's the word in the "way in" group of the highest Republican circles at New York and Washington. How "soon" is soon? Those who know say it could be in a few months, but certainly before the end of the year.

He will not, of course, relinquish his new association with a big downtown Broad Street law firm. But the chairmanship of the board of the pharmaceutical corporation will give Dick Nixon exactly what he has wanted ever since his defeat in California. It will give his close friends here exactly what they have wanted for him since the last election.

FIRST IT WILL give him financial independence and enable him to meet the unusually high expenses he must incur to live on a status side of the town, to travel and to select the most advantageous of the many speaking dates and writing assignments he will be offered.

It will keep him noncontroversial and away from the necessity of handling firms which attempt to sell hardware to the government and the Defense Department.

Republican sources of this report recall that important GOP policy makers once sought to give Gen. Douglas MacArthur similar

independence. But for many reasons, political and nonpolitical, and the fact that the general became head of a firm dealing with the government, the effort faded away.

Former Republican presidential candidate Thomas E. Dewey, who still has great influence in GOP ranks, has neutralized himself on many issues by representing several foreign governments. Nixon is expected to eschew this.

An inside group of Republicans want Dick Nixon to remain free of "such entangling alliances." By associating himself with the pharmaceutical firm Nixon will be able to write, speak and issue statements on foreign policy. He will be able to turn foreign correspondent during his coming European trip.

HIS SUPPORTERS want him to take over the Republican party's "center" and hold it — on national as well as international affairs. They believe he has weight with the liberal wing of the party — as well as with the "non-extreme conservatives."

"Dick Nixon is positively not going out of politics," one of the highest Republican policy makers in the land said to this columnist the other day. "He will attempt to become an independent voice representing the center of the party. He will also be the spokesman for an influential group of men here in New York. They are vital in the media field, in financial circles, in industrial circles. Thus as he becomes more outspoken, he will become one of the few strong voices of the Republicans."

Add to this his ability to raise political funds among his friends.

Thus Dick Nixon will develop into a powerful figure in Republican ranks, it was said. He can do this right across the board in New York as he could not have done it in California. His new

residence is in the Republican stronghold, the 17th Congressional District represented by Rep. John Lindsay — whom many in the GOP want to run for state office. Local Republicans already have contacted Nixon. He has agreed to be active.

He has not the slightest thought now of running for office. At 50 years of age, he can afford to wait for the 1968 election.

IF THE STRATEGY of his friends and himself develops as they plan it, he will be the most powerful noncontender at the '64

GOP nominating convention. If the Republicans win then, he can help build the cabinet as Tom Dewey did for Dwight Eisenhower back in '52. It was then that Dewey named many secretaries, including the head of the Labor Department. What Nixon wants, say some of his friends, is the post of secretary of state.

Much of this was worked out when Nixon was here during the first week in March. It was then that he decided to move East and back into politics without thought of office but with thoughts of becoming the advisor to presidents.

Third Government?

By James McNeish

PALERMO, SICILY — A Mafia leader was asked recently if it were true that there were three governments in Italy: That of Rome, that of Sicily, and that of the Mafia.

"No, no," he replied, "there is only one." And then, after a pause, "Rome and Sicily don't count."

It remains to be seen if the commission set up by the Rome government can prove him wrong. For the first time since Italy was unified a century ago, the way is now clear for the government to destroy the Sicilian Mafia, the criminal organization which has been called "history's greatest threat to morality."

This powerful force, 150 years old, has since 1945 been responsible—according to official estimates—for more than 1,000 deaths in Western Sicily alone.

THERE HAVE BEEN previous attempts to destroy the Mafia. Mussolini—in a purge which also jailed and tortured hundreds of innocents—put it down during the Fascist regime. But the roots remained. After the war it sprang up stronger than ever.

Recently the Rome government set up a national commission to study the phenomenon and propose ways to exterminate it.

Now that the elections are over, the 30-man commission is set to go into action—in Rome itself, where the Mafia has powerful 'friends' in office; and in Sicily, where assassinations, disappearances and the sabotage of foreign-backed industries continue daily.

During the recent election campaign, Sicilian Christian-Democrat MP's, notorious Mafia, were notably silent about the pending investigation.

The inquiry clearly demonstrates that the Mafia is run by a powerful elite in Palermo, the Sicilian capital, that it is politically tied to Rome, and that its annual profits—running into millions of lire—come chiefly from drug-running, the building industry, and government subcontracting.

Until Fascism, the Mafia was a purely feudal organization, a protection and extortion racket, flourishing on exploited peasants, absentee landlords and cooperative priests. It functioned efficiently and silently. If the state

couldn't find your stolen cattle (which it couldn't), the Mafia could—provided it was recompensed.

In the last war, Sicilian-American gangsters—reimported to help the Allied invasion of 1943 — went further than their military mission required.

With the willing collaboration of the American Occupation Forces in the West of the island, they took over key posts, helped the old Mafia leaders back to power (some became mayors), and pointed out that big business was far more profitable than cattle-rustling.

BY 1947, when the island acquired a kind of home rule and the Christian Democrats swept into power, the traditional Mafia was back in the saddle. And a new, more dangerous Mafia—urbanized and streamlined—was rising in the cities.

The rustic beret had given way to the lounge suit, the shotgun to the machinegun; and if he wanted to get into office—and stay there—a Christian Democrat candidate was obliged to rely on the protection of his new-style Mafia "friends."

Not even the post-war land reforms — which divided the huge estates, reducing the Mafia's traditional economic dominion—rattled the society. The political figures who rose up to lead the peasants were cut down, systematically, in a series of murders which lasted until 1957. Not once has a killer been brought to justice; suspects have always been released "for insufficiency of proof."

With its members in the regional government, the Mafia can secure sub-contracts easily and thus paralyze industry. Besides building, it controls the television industry, labor, water supply and all branches of marketing.

The weapon called a "Duck's Foot Pistol" came into use in England shortly after 1800. It fired four balls simultaneously from four barrels arranged so as to spread the shots over a wide front. It was also called a Mob Pistol and was used by prison officers, sea captains and others who might be called upon to deal with vicious mobs. If fired point-blank into a crowd, it was almost certain to hit some one.
